# Modular shelving

## Organize space as it best suits you.

The great versatility of this shelving system means you can organize and optimize space in any room. Made from anodized aluminium alloy with aluminium or polyethylene shelves or AISI 304 stainless steel, it is guaranteed to offer lasting stability against corrosion by water and moisture and provide a high standard of hygiene. In point of fact, the quality of the IM 92 modular shelving is guaranteed by the international marks NF and NSF. An elegant design, high load capacity, unbeatable stability and ease and speed of assembly are some of the features that - together with the extensive choice of standard sizes - make this shelving highly adaptable, allowing for a great many combinations and resulting in considerable space saving, meeting the needs of numerous different applications. Moreover, with the aid of "Shelving Optimization" - an easy-to-use software that Italmodular issue to their dealers - it takes just a few minutes to choose the furnishing solution that best suits the desired application by viewing the solution in 3D along with the relevant estimate: all the hassle of consulting tables and doing time-consuming calculations by hand is now a thing of the past.

# Optimal solution for rationalizing and organizing available storage space.

## Automatic composition calculation software.

Quick and easy to use, it enables you to put the composition together and gives a 3D view of the solution along with the relevant estimate.

## A system that can be tailored to any size.

With its great versatility, the system organizes and optimizes space in many areas of application, while the extensive choice of standard sizes makes the shelving highly adaptable, allowing for a great many combinations and resulting in considerable space saving.

## Main fields of application

Food industry

Industrial refrigeration

Catering

Hotel industry

Pharmaceutical industry

Hospitals

Office furnishing

Storehouses

### Guaranteed to last.

Made entirely from anodized aluminium alloy 20 microns thick with shelves made from aluminium or polyethylene, and in the AISI 304 stainless steel version, it is guaranteed to offer lasting stability against corrosion by water and moisture.

### Quick and simple to assemble.

The extreme simplicity and speed of assembly achieved thanks to the slot-together system patented by Italmodular mean assembly is straightforward and fast and can be performed without the aid of special tools.

Stainless steel shelf

#### **High standard of hygiene.**

The smooth, rounded surfaces, the closed profiles and the total absence of gaps and cracks in which dirt can lurk combine to deliver a high standard of hygiene.

#### **Impressive stability and high load capacity.**

Both stable and sturdy, they do not need any special fastening or anchoring, while they are built to take heavy loads with minimal bending. A 100cm shelf has a load capacity of approx. 200 kg.

## Optional

Locking and non-locking swivel castor ø 100 mm.

Stainless steel bar ø15 mm for hanging cold meats.

Retaining bar.

Separator.

Label.

# Trolleys

## DISPLAY TROLLEY.

### Functional and versatile display solution.

A trolley designed to display and store all manner of products. A practical, elegant system for putting crates of fruit and vegetables, wine bottles, bread baskets, trays of flowers etc. on best display. It comes in anodized aluminium with a choice of aluminium or polyethylene shelves and is characterized by its strength, stability, practicality and lasting durability. It features 4 galvanized steel locking swivel castors, which make it particularly safe and easy to handle even when carrying a full load. Quick and easy to assemble, it can be supplied in a wide range of sizes and can adapt to cater to any display need.

## MODULAR TROLLEY.

### Stable, practical handling.

This trolley has been designed and manufactured to carry all manner of foodstuffs and other products from the unloading area to the storeroom. It comes in food-safe anodized aluminium and stands out for its excellent strength, stability and practicality. The galvanized steel locking swivel castors make it particularly safe and easy to handle even when carrying a full load. With an elegant design and quiet operation, it comes in an extensive range of standard sizes and has shelves made from anodized aluminium 20 microns thick or polyethylene, making this the optimal solution to meet the needs of numerous applications.

Optimal solution for handling, displaying, storing.

**Strong and stable.**

Built to take heavy loads with minimal bending.  
A 1152 mm shelf has a 110 kg load capacity.

**Adapts to meet any display need.**

A practical, elegant system in a wide range of available sizes for saving space and putting crates of fruit and vegetables, wine bottles, bread baskets and trays of flowers on best display, while it lends itself to many other display solutions.

**Food-safe interchangeable shelves.**

Shelves come in two versions - anodized aluminium 20 microns thick and polyethylene - and have a number of distinguishing traits: they are easy to remove, boast an elegant, modern design and are easy to clean, making them thoroughly hygienic and thus food safe.
